

**We are here  
to help you!**

Project CARES provides culturally and linguistically competent Case Management services to Asians and Pacific Islanders, and all those in Santa Clara County who are living with HIV/AIDS, by increasing healthy lifestyle choices to reduce self-destructive behavior, and by increasing family and community support.

# ► Living with HIV/AIDS

The San Francisco Bay Area is home to one of the largest A/PI Americans and immigrants communities in the nation. For example, three out of the top ten cities

Serving all those in Santa Clara County living with HIV/AIDS

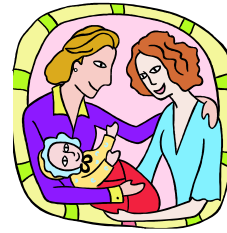

(populations of over 100,000) with the highest percentage of Asians are in Santa Clara County: Sunnyvale, Santa Clara and San Jose. Research studies have revealed alarming levels of drug abuse among A/PIs, particularly among recent immigrants from the Philippines and Southeast Asian countries, and high rates of HIV-related risk behaviors among Asian drug users, Asian female sex workers and A/PI gay men.

Project CARES integrates culturally sensitive substance abuse and HIV/AIDS Case Management services for A/PI's and all those living with HIV/AIDS in Santa Clara County.
